

QUANTUM BRIDGE

Quantum Bridge Holdings, LLC

Doing business as Quantum Bridge

UEI QCZ1EEZJUJB9

CAGE 25M96

ST. LOUIS, MISSOURI

Technology. Business Support. Supplies.

Quantum Bridge Holdings, LLC (QBH), doing business as Quantum Bridge, supports government agencies, educational institutions, and prime contractors with technology services, data and administrative support, research, and product sourcing.

CORE CAPABILITIES

Technology & Systems Support

Custom software, websites, portals, and dashboards; database development, API integration, and automation; Oracle EPM, Oracle Integration Cloud, and Oracle Fusion integration support; requirements analysis, troubleshooting, and documentation.

Data, GIS & Administrative Support

Data entry, record organization, cleanup, and reporting; spreadsheet and database support; GIS mapping, spatial analysis, and location-based applications; AI-assisted document processing and information extraction.

Products, Equipment & Supply Sourcing

Office and school supplies, books, library and instructional materials; apparel and uniforms; kitchen and food-service supplies; medical supplies and buyer-specified equipment. Supplier quotes, specification comparisons, availability, freight, and delivery planning.

Research, Publishing & Information Services

Public-source research, supporting documentation, content development, editing, digital publishing, website content, reports, and reference materials.

WHY QUANTUM BRIDGE

Direct accountability. Owner involvement throughout scoping, coordination, and delivery.

Cross-functional capabilities. Technology, data, research, business support, and sourcing.

Defined delivery. Written scope, milestones, acceptance criteria, testing, documentation, and handoff.

Documented sourcing. Product specifications, pricing, lead times, freight, and substitutions submitted for buyer approval.

RELEVANT EXPERIENCE

Owner and Managing Member Alana J. Harmon brings municipal IT, GIS application development, public-sector workflow, and Oracle systems experience, including work in a Department of Homeland Security contracting environment.

QBH-developed projects, including CivicGridSystems, demonstrate application development, geospatial information, public-source research, and data presentation.

Founder experience and company-developed projects are separate from QBH contract past performance.
